DESCRIPTION:

This workshop is intended to provide an open exchange of ideas and concerns between the public agencies that are in charge with overseeing the Erosion and Sediment Control Program and major developers, contractors and consulting engineers who are regulated by the program. Representatives from the Hawaii Department of Health, Hawaii Department of Transportation and the City & County of Honolulu Departments of Planning and Permitting and Environmental Services will describe their existing permitting and enforcement policies and will discuss contemplated future program directions. Representatives of the land development, construction and engineering sectors will then share their major concerns and questions related to existing practices and will offer suggestions with respect to future policy and implementation directions. A panel of all the speakers will discuss major issues raised and address questions from the audience.

AGENDA:
