City and County of Honolulu Department of Environmental Services

State Department of Health Clean Water Branch Polluted Runoff Control Program

Waikiki Aquarium

"This is our home, our island, our responsibility to care for its health and beauty." - Mayor Mufi Hannemann

WE ALL LIVE IN A WATERSHED

A WATERSHED is all the land that drains runoff to a waterbody, such as a stream that flows from the mountain to the sea.

Education and empowerment can improve our environmental awareness over time. Teaching school-aged children about their role in water quality before bad habits become ingrained has long lasting positive effects. Teaching them about the cause of dirty water and how to solve the problem has an ever greater effect.

EDUCATION & OUTREACH PARTNERS

Partner	Mission Statement
City and County of Honolulu Department of Environmental Services Division of Environmental Quality Storm Water Quality Branch	To protect public health and the environment by providing effective and efficient management of the wastewater, storm water, and solid waste disposal systems for the City and County of Honolulu. Storm Water Community Relations: (808) 768-3248, isato@honolulu.gov . City and County Storm Water NPDES Permit: (808) 768-3287, (808) 768-3242, www.cleanwaterhonolulu.com
State of Hawaii Department of Health Clean Water Branch Polluted Runoff Control Program	To protect and improve the health and environment for all people in Hawaii. (808) 586-4309, lawana.collier@doh.hawaii.gov , hawaii.gov/health/environmental/water/cleanwater/prc/index.html
University of Hawaii at Manoa Waikiki Aquarium	To inspire and promote understanding, appreciation and conservation of Pacific marine life. (808) 440-9027, maryloufoley@waquarium.org , www.waquarium.org
